

## ICRS ORIGIN OF GOODS

### Artemimol

International Chemical Reference Substances are established on the advice of the WHO Expert Committee on Specifications for Pharmaceutical Preparations. They are supplied for use in physical and chemical tests and assays described in the specifications for quality control of drugs published in The International Pharmacopoeia. All International Chemical Reference Substances (ICRS) are for use as reference standards in tests and assays carried out in accordance with the official methods of the International Pharmacopoeia (Ph.Int.) and for no other purpose.

The ICRS are established and distributed following the general principle of ISO Guide 34.

**Purpose of Material: this shipment contains drug samples for investigational use only and is intended for laboratory testing only.**

**NOT FOR FOOD**

**NOT FOR HUMAN CONSUMPTION**

**FOR LABORATORY USE ONLY**

I give you the origin for the following substance:

Code catalogue	Batch number	Origin
ICRS1410	2	Synthetic

- The material is not of animal origin;
